# Comic Strips

## ESL Writing Activity

### What should you prepare before class?

- Find some comic strips online (or in a newspaper).
- Omit all of the dialog from the characters' speech bubbles.
  - You could do this digitally if you know how to.
  - Alternatively, just use *White Out* or white tape.

### Comic Strips

- Students discuss their favorite comic book characters.
- Hand out the edited comic strips that you prepared.
- Model some examples for what could be written in some of the dialog bubbles.
- Next, students fill in their own dialog with a partner.
- After completion, students read their comic strips aloud.
  - They could also do a role play with different voices.
- Reward prizes for the most creative versions.
